Candidate Statement

Lee Neely has been a member of UNCLE Credit Union for twenty-five years. He is currently employed by Lawrence Livermore National Security (LLNS), where he has held many positions including cyber security professional, computer scientist, web master, infrastructure services provider, customer service representative for the last twenty-eight years. Lee received his bachelor's degree in Computer Science from California State University Hayward. He currently volunteers his time to support veterans' organizations such as the American Legion and Sons of Legion, East Bay Stand Down and the Viet Nam Veterans Foundation, he lends his cybersecurity expertise as he serves on the Information System Security Association (ISSA) International board and ISSA Boise Chapter President. He also serves as a Judge in local Science Fairs including the St. Raymond's Science Fair.

Lee currently serves as the UNCLE Credit Union Policy Committee Chair and is a Certified Credit Union Board and Supervisory Committee volunteer.

Lee believes his experience on The Board, Supervisory Committee, CCUB, CCUSC Certifications and professional experience with information systems, cyber security, conducting and participating in audits will serve him to guide the credit union to modern, safe, secure technology choices to provide outstanding service for our members.
